FEBRUARY 18TH, 2009

10:00 AM TO 12:00 PM

This workshop will be hosted by Direct Associates, a SOMWBA certified direct marketing agency, who will show you how to make your marketing work harder by focusing on the four key steps to results: relevance, resonance, response and ROI. You will cover the basic steps for building a marketing strategy and choosing the most effective channels to use — both online and offline. And, show why measuring your marketing's effectiveness is the key to its long-term success.

- See real examples of what works and does not work, *and why*
- Learn how the latest digital tools can increase results dramatically
- Explore how to build synergy between your marketing efforts and increase overall success
- See case studies for both consumer and business campaigns with actual results
- Ask questions and discuss your specific challenges
